

PIG FARMING 101

sappo
Academy
Reaching your potential

The online course that covers it all

Up-skill yourself with pig production knowledge, all from the comfort of your home. Tailored for seasoned farmers, young agriculturists, aspiring farmers, dedicated government officials, and all those who possess a passion for pig farming.

Basics of pig farming - Dive deep into essential knowledge that equips you for success.
Virtual piggery presentations - Experience the ins and outs of a real-life piggery in a time when physical visits are restricted.

12-Module course designed to guide you through the fundamental principles of pig farming. Whether you choose to embark on one module at a time or dive head first into the entire package, we've got you covered. Opt for the full package and enjoy it at a discounted price of **R1460**

Farm Biosecurity	R 145	Pig Health Management	R 260	Marketing Pigs	R 145
