01

Vitamin

Last week Adisseo began shutting down production at its vitamin A plant in France, which has A production capacity of 3,000 tons per year, or about 12 percent of the world's vitamin A supply.

02

Amino Acid

At present, DL-methionine market maintains a tight situation, some manufacturers quote USD2.8/KG and sign orders to December with difficult delivery, the overall market inquiries increase. It is expected that the price of methionine will be strong in the short term, and we will pay attention to the delivery progress of the factory in the later stage.

03

API

Enrofloxacin/ciprofloxacin hydrochloride, the two mainstream factories stopped reporting for a week last week, and the quotation was resumed on Monday. At present, the quotation of Enrofloxacin is USD23/KG, and the quotation before stopping was about USD21/KG, the price increased by 10%. The quotation of Ciprofloxacin hydrochloride is USD22/KG. The quotation before stopping is about USD19.5/KG, the price increased by 12%.

04

Food Additive

Recently, affected by the market situation, the transaction price of glucosamine sulfate potassium salt mainstream manufacturers almost bottomed out and the transaction price in foreign markets was about USD4.6-5.0/KG. The likelihood of a subsequent decline is expected to be small, and we will continue to monitor the market situation.
