Vitamin

The price of folic acid weakened this month, and the transaction volume was light. The price of folic acid has been hovering at the bottom this year, demand is not strong, and the market is relatively stable.

Amino Acid

At present, domestic solid methionine factories have strong external quotations, and the trade market price is around \$3.2/KG. According to customs data, imported solid methionine decreased by 1.5% month-on-month in October. The market is expected to be stable to strong in the short term.

API

For enrofloxacin/ciprofloxacin hydrochloride, two mainstream factories, Guobang and Jingxin, suspended their quotations again last Friday after a wave of price increases. Jingxin has now resumed quotation, enrofloxacin tonnage The export quotation for grade and above is USD24/KG, and the quotation before the suspension was around USD23.2/KG. The quotation for tonnage grade of ciprofloxacin hydrochloride is USD22.6/KG, and the price has not changed. Guobang has not yet resumed quotation and is expected to resume next week.

FOOD ADDITIVES

Recently, some mainstream manufacturers of the creatine monohydrate have stopped reporting due to saturation with orders this year. The current domestic market transaction price is around USD8.5/KG. Each manufacturer currently has a long delivery time, and prices are expected to continue to rise in the future.
